

# Carving a 3-Dimensional Diorama

By Robert Beard

Learn to carve and assemble a 3-dimensional pictorial diorama. Step by step instructions will allow the beginner as well as a master crafts person to successfully understand and complete this exciting technique.

The use of carving tools will be carefully explained, demonstrated and practiced in this 3- day workshop. Figure carving techniques like beveling, matting, will be emphasized in this course.

The cost of this seminar is \$200.00. All leather, stains or finishes will be included in the price of the seminar. Picture frames will be available at the time of the class for nominal charge.
